#### INDEPENDENT AUDITORS' REPORT

Board of Directors North County Fire Protection District Fallbrook, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of North County Fire Protection District as of and for the fiscal year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of North County Fire Protection District, as of June 30, 2021, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information, budgetary comparison information, schedule of proportionate share of the net pension liability, schedule of pension contributions, and schedule of changes in the District's total OPEB liability and related ratios be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a separate report dated December 31, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2021

Management's Discussion and Analysis (MD&A) offers readers of North County Fire Protection District's financial statements a narrative overview of the District's financial activities for the fiscal year ended June 30, 2021. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

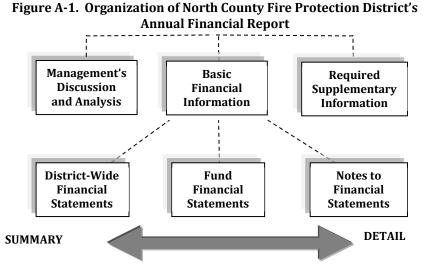

- The District's net position decreased \$818,826 as a result of this year's operations.
- Total revenues from all sources increased by 12.54%, or \$2,572,908 from \$20,520,080 to \$23,092,988, from the prior year, primarily due to increases in property taxes of \$685,814 and charges for services of \$1,622,750.
- Total expenses for the District's operations increased by 2.19% or \$512,709 from \$23,399,105 to \$23,911,814, from the prior year, primarily due to increases in salaries, benefits, and interest expense.
- The District purchased new capital assets during the year in the amount of \$239,986. Depreciation expense was \$1,391,618.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts – management discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- District-wide financial statements provide both short-term and long-term information about the District's overall financial status.
- *Fund financial statements* focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
  - The *governmental funds* statements tell how basic services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2021

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (continued)**

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

#### **District-Wide Statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position – the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources – is one way to measure the District's financial health, or *position*.

- Over time, increases and decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of buildings and other facilities.
- In the district-wide financial statements, the District's activities are categorized as *Governmental Activities*. Most of the District's basic services are included here, such as fire protection, medical transport, and administration. Local property taxes finance most of these activities.

#### **GOVERNMENTAL FUNDS FINANCIAL STATEMENTS**

#### Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2021

#### **GOVERNMENTAL FUNDS FINANCIAL ANALYSIS**

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unreserved fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of June 30, 2021, the District reported a total fund balance of \$11,790,456. An amount of \$3,090,211 constitutes the District's *unassigned fund balance*.

#### OPERATIONS FUND BUDGETARY HIGHLIGHTS

The final budgeted expenditures for the District's operational fund at year-end were \$63,730 less than actual. Actual revenues were greater than the anticipated budget by \$2,721,496. Actual revenues less expenses were under budget by \$2,657,766.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

By the end of 2020-21 the District had invested \$239,986 in new capital assets, related to the purchase of equipment for use in fire protection. (More detailed information about capital assets can be found in Note 7 to the financial statements). Total depreciation expense for the year was \$1,391,618.

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

#### A. Description of Organization

The North County Fire Protection District (the District) provides fire and emergency medical services to the taxpayers and residents in the Fallbrook, Rainbow, and Bonsall communities of northern San Diego County. The District's governmental powers are exercised through a five-member board of directors.

#### **B.** Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, and agencies that are not legally separate from the District.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The District has identified no organizations that are required to be reported as component units.

#### C. Basis of Presentation, Basis of Accounting

#### 1. Basis of Presentation

#### **Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the primary government (the District) and its component units. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, other nonexchange transactions, and charges for services.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### **Major Governmental Funds**

The District maintains the following major governmental funds:

**General Fund:** This fund is used to account for all financial resources of the District, except those required to be accounted for in another fund when necessary.

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation, Basis of Accounting (continued)

#### 1. Basis of Presentation (continued)

#### Major Governmental Funds (continued)

#### **Special Revenue Funds:**

**Fire Mitigation Fund:** This fund is used to account for fees collected from builders in the service area that are restricted for the purchase of new capital assets when those assets are needed due to population and infrastructure growth in the service area.

#### Non-Major Governmental Funds

#### Other Governmental Funds:

**Rainbow Subzone-Operations Fund:** This fund is used to account for revenues collected and restricted for expenditures made in the Rainbow Subzone service area.

**The Rainbow Subzone-Fire Mitigation Fund:** This fund is used to account for fees collected from builders in the service area that are restricted for the purchase of new capital assets that are needed due to population and infrastructure growth in the Rainbow Subzone service area.

#### 2. Measurement Focus, Basis of Accounting

#### **Government-Wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which all eligibility requirements have been satisfied.

#### **Governmental Fund Financial Statements**

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and financing from capital leases are reported as other financing sources.

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Presentation, Basis of Accounting (continued)

#### 3. Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year. Generally, available is defined as collectible within 60 days.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

#### D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

#### 1. Cash and Investments

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

*Level 2* – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

# D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

#### 1. Cash and Investments (continued)

*Level 3* – Inputs that are unobservable. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment, and is based on the best information available in the circumstances.

#### 2. Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable – ambulance billings consist of amounts owed by individuals for services rendered for ambulance transport. Uncollectable accounts are based on prior experience and management's assessment of the collectability of existing accounts. As of June 30, 2021, an allowance for doubtful accounts has been recorded for those uncollectable accounts (see Note 4).

#### 3. Capital Assets

Capital assets are stated at cost or at their estimated fair value at date of donation. It is the District's policy to capitalize assets costing over \$5,000. The provision for depreciation is computed using the straight-line method over the estimated service lives of the capital assets.

Estimated service lives for the District's classes of assets are as follows:

Description	Estimated Lives
Structures and Improvements	10-50 years
Hydrants	10 years
Equipment and Vehicles	5-20 years

#### 4. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

#### 5. Compensated Absences

The District's policy is to permit full time employees to accumulate earned vacation time and sick leave. Earned vacation time shall be earned by each employee subject to the accrual limitations and policies as defined by District policies. Such unused compensation is calculated at the employees' then prevalent hourly rate at the time of retirement or termination. Whereas vacation time is compensated at 100% of accumulated hours, sick leave is accrued and compensated only at retirement or termination based on the years of employment.

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

# D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

#### 6. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plan and addition to/deductions from the Plans fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date June 30, 2019 Measurement Date June 30, 2020 Measurement Period July 1, 2019 to June 30, 2020

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retires) as of the beginning of the measurement period.

#### 7. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan ("the Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments which are reported at cost.

The following timeframes are used for OPEB reporting:

Valuation Date June 30, 2020 Measurement Date June 30, 2020 Measurement Period July 1, 2019 to June 30, 2020

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

# E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

#### 8. Net Position

Net position is classified into three components: net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Restricted** This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### 9. Fund Balances

The fund balance for governmental funds is reported in classifications based on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

**Nonspendable**: Fund balance is reported as nonspendable when the resources cannot be spent because they are either in a nonspendable form or legally or contractually required to be maintained intact. Resources in nonspendable form include inventories and prepaid assets.

**Restricted**: Fund balance is reported as restricted when the constraints placed on the use of resources are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provision or by enabling legislation.

**Committed**: The District's highest decision-making level of authority rests with the District's Board. Fund balance is reported as committed when the Board passes a resolution that places specified constraints on how resources may be used. The Board can modify or rescind a commitment of resources through passage of a new resolution.

**Assigned**: Resources that are constrained by the District's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as assigned fund balance. Intent may be expressed by either the Board, committees (such as budget or finance), or officials to which the Board has delegated authority.

Notes to Financial Statements June 30, 2021

#### NOTE 1 - DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

# D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

#### 8. Fund Balances (continued)

**Unassigned:** Unassigned fund balance represents fund balance that has not been restricted, committed, or assigned and may be utilized by the District for any purpose. When expenditures are incurred, and both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first, then unrestricted resources in the order of committed, assigned, and then unassigned, as they are needed.

#### E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

#### F. Property Taxes

The San Diego County Assessor's Office assesses all real and personal property within the County each year. The San Diego County Tax Collector's Office bills and collects the District's share of property taxes and voter-approved taxes. The San Diego County Auditor-Controller's Office remits current property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article XIIIA of the State Constitution at one percent (1%) of countywide assessed valuations.

Property taxes receivable at year-end are related to property taxes collected by San Diego County, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date March 1 Levy date Iuly 1

Due dates November 1 and March 1 Collection dates December 10 and April 10

Property taxes levied are recorded as revenue when received, in the fiscal year of levy, because of the adoption of the *alternate method of property tax distribution* known as the Teeter Plan, by the District and San Diego County. The Teeter Plan authorizes the County Auditor-Controller to allocate 100% of the secured property tax billed but not yet received or paid to the District. San Diego County remits tax proceeds to the District in installments during the fiscal year.

Notes to Financial Statements June 30, 2021

#### **NOTE 2 - CASH AND INVESTMENTS**

Cash and investments at June 30, 2021, were categorized on the statement of net position as follows:

Description		Balance
Cash and investments Restricted – cash and investments		9,130,057 2,236,219
Restricted – cash and investments		2,230,219
Total cash and investments		11,366,276

Cash and investments at June 30, 2021, consisted of the following:

Description		Balance
Cash on hand	\$	118
Demand deposits held with financial institutions		4,474,696
California Local Agency Investment Fund (LAIF)		2,155,404
San Diego County Pooled Investment Fund (SDCPIF)		4,736,058
Total cash and investments	\$	11,366,276

#### **Demand Deposits**

At June 30, 2021, the carrying amount of the District's demand deposits was \$4,474,696, and the financial institutions balances totaled \$4,565,783. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items.

#### **Custodial Credit Risk - Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC) and are collateralized by the respective financial institutions. In addition, the *California Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

#### California Local Agency Investment Fund (LAIF)

The California State Treasurer, through the Pooled Money Investment Account (PMIA), invests taxpayers' money to manage the State's cash flow and strengthen the financial security of local governmental entities. PMIA policy sets as primary investment objectives safety, liquidity and yield. Through the PMIA, the Investment Division manages the Local Agency Investment Fund (LAIF). The LAIF allows cities, counties and special districts to place money in a major portfolio and, at no additional costs to taxpayers, use the expertise of Investment Division staff. Participating agencies can withdraw their funds from the LAIF at any time as LAIF is highly liquid and carries a dollar-in dollar-out amortized cost methodology.

Notes to Financial Statements June 30, 2021

#### **NOTE 2 - CASH AND INVESTMENTS (continued)**

#### California Local Agency Investment Fund (LAIF) (Continued)

The District is a voluntary participant in LAIF. The fair value of the District's investment in this pool is reported at an amount based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of the of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF. LAIF is not categorized under the fair value hierarchy established by GAAP as it is held at an amortized cost basis and it is Not Rated under the current credit risk ratings format. For financial reporting purposes, the District considers LAIF a cash equivalent due to its highly liquid nature and dollar-in dollar-out amortized cost methodology. As of June 30, 2021, the District held \$2,155,404 in LAIF.

#### San Diego County Treasury Investment Pool (SDCTIP)

The District is a voluntary participant in the San Diego County Treasury Investment Pool (SDCTIP) pursuant to Government Code Section 53694. The cash flow needs of participants are monitored daily to ensure that sufficient liquidity is maintained to meet the needs of those participants. At the time deposits are made, the San Diego County Treasurer may require the depositing entity to provide annual cash flow projections or an anticipated withdrawal schedule for deposits in excess of \$1 million. Projections are performed no less than semi-annually. In accordance with Government Code Section 27136, all request for withdrawal of funds for the purpose of investing or deposits the funds elsewhere shall be evaluated to ensure the proposed withdrawal will not adversely affect the principal deposits of the other participants. Pool detail may be obtained from the Treasurer-Tax Collector – San Diego Administration Center – 1600 Pacific Hwy, Room 162 – San Diego, CA 92101 or the Treasurer and Tax Collector's office website at www.sdttc.com. As of June 30, 2021, the District had \$4,736,058 in the SDCTIP.

#### NOTE 3 - RESTRICTED - CASH AND INVESTMENTS AND RESTRICTED NET POSITION

Restricted assets and restricted net position as of June 30, 2021, were categorized as follows:

Description		Balance
Restricted – cash and investments	\$	2,236,219

Notes to Financial Statements June 30, 2021

#### NOTE 6 - DEPOSITS WITH PUBLIC AGENCIES SELF INSURANCE SYSTEM (PASIS)

The District is one of seven Members in the Public Agency Self-Insurance System (PASIS). PASIS is a joint-powers authority which was established in 1977 for the purpose of operating and maintaining a cooperative program of self-insurance and risk management for workers' compensation for its Members.

PASIS's purpose is to provide for the collection of workers' compensation claims data, purchase claims examiner services, general counsel services and excess insurance coverage. Members are responsible for paying their own claims and related expenses for workers' compensation related injuries. PASIS requires active Members to maintain a minimum base funding of 125% of a Members' self-insured retention plus a 15% increase for Members with annual payroll in excess of \$1.8 million. The deductible for self-insured retention selected by the District is \$300,000. PASIS carries excess insurance through a joint powers authority to cover amounts over the self-insured retention.

As of June 30, 2021, the District had \$490,311 on deposit with PASIS. Further information in regards to PASIS is as follows:

#### **Bond Provisions**

The obligations of the District under the bonds, including the obligation to make all payments of interest and principal when due, are obligations of the District imposed by law and are absolute and unconditional, without any right of set-off or counterclaim. The bonds do not constitute an obligation of the District for which the District is obligated to levy or pledge any form of taxation. Neither the bonds nor the obligations of the District to make payments on the bonds constitute an indebtedness of the District, the State of California, or any of its political subdivisions in contravention of any constitutional or statutory debt limitation or restriction. For the purpose of paying the principal of and interest on the bonds, the District's council has covenanted under the trust agreement, to take such actions annually as are necessary or appropriate to cause the debt service on the bonds due in any fiscal year to be included in the budget for such fiscal year and to make the necessary appropriations therefor from any legally available funds to ensure that sufficient sums are available to pay the annual principal of and interest on the bonds as the same become due.

Notes to Financial Statements June 30, 2021

#### **NOTE 9 - PENSION OBLIGATION BONDS (continued)**

#### **Bond Provisions (continued)**

The bonds maturing on or before June 1, 2035, are not subject to optional redemption prior to their respective stated maturities. The bonds maturing on and after June 1, 2035, are subject to optional redemption from any source of available funds of the District, prior to their respective maturities, in whole or in part among maturities as specified by the District, and by lot within a maturity, on any date on or after June 1, 2035, at a redemption price equal to the principal amount of the bonds to be redeemed, plus accrued interest thereon to the date of redemption, without premium.

The bonds maturing on June 1, 2035 to June 1, 2040, are also subject to mandatory sinking fund redemption on June 1 in the years, and in the amounts, as set forth in the official statement at a redemption price equal to one hundred percent (100%) of the principal amount thereof to be redeemed (without premium), together with interest accrued thereon to the date fixed for redemption.

The following events constitute events of default under the trust agreement: (a) if default shall be made in the due and punctual payment of the principal of any bond when and as the same shall become due and payable, whether at maturity as therein expressed, by declaration or otherwise; (b) if default shall be made in the due and punctual payment of any installment of interest on any bond when and as such interest installment shall become due and payable; (c) if default shall be made by the District in the observance of any of the covenants, agreements or conditions on its part in the trust agreement or in the bonds contained, and such default shall have continued for a period of thirty (30) days after written notice thereof to the District; or (d) if the District shall file a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America, or if a court of competent jurisdiction shall approve a petition, seeking reorganization of the District under the federal bankruptcy laws or any other applicable law of the United States of America, or if, under the provisions of any other law for the relief or aid of debtors, any court of competent jurisdiction shall assume custody or control of the District or of the whole or any substantial part of its property. A bondholder may exercise any remedies available pursuant to the law or the trust agreement if an event of default occurs under the trust agreement.

#### **NOTE 11 - WORKERS' COMPENSATION CLAIMS PAYABLE**

The District is exposed to various risks of loss and has effectively managed risk through a combination of insurance, with deductibles, self-insurance, and employee education and prevention programs. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. In addition, there were no settlements or claims in the past three years that exceeded insurance coverage.

The District is self-insured for workers' compensation benefits. The District is one of nine participants in the Public Agency Self-Insurance System (PASIS). PASIS is a joint-powers authority which was established in 1977 for the purpose of operating and maintaining a cooperative program of self-insurance and risk management for workers' compensation. There is no pooling of workers' compensation liability between the participants, and each participant self-insures their liability up to \$300,000 per occurrence. As of June 30, 2021, the District had \$490,311 on deposit with PASIS. All members are responsible for paying their own claims and related expenses. PASIS may advance funds to members who have incurred large losses; however, these advances must be repaid. Excess insurance is purchased above the self-insured retention. As of June 30, 2021, the liability for workers' compensation claims payable was estimated at \$3,516,697.

Changes in workers' compensation claims payable for the year ended June 30, 2021, were as follows:

Description		Amount
OPEB related deferred outflows of resources	\$	1,512,981
Net other post-employment benefits obligation		5,624,356

#### A. General Information about the OPEB Plan

#### Plan description

The District provides other postemployment benefits (OPEB) to employees who retire from the District and meet certain eligibility requirements. The contribution requirements of single-employer plan members and the District are established and may be amended by the Board of Directors. The District implemented its OPEB plan in the fiscal year ended June 30, 2014 when the District joined CalPERS for medical insurance for its employees and retirees. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

#### NOTE 12 - OTHER POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (continued)

#### **B.** Total OPEB Liability

The District's total OPEB liability of \$5,624,356 was measured as of June 30, 2021, and was determined by an actuarial valuation as of that date.

#### Actuarial assumptions and other inputs

The total OPEB liability in the June 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	2.19%
Inflation	2.75%

Salary Increases Salary Scale plus Merit

Investment Rate of Return 2.19%

Mortality Rate CalPERS Membership Data
Pre-Retirement Turnover CalPERS Membership Data

Healthcare Trend Rate 4.5 to 6.5%

#### **Discount Rate**

The discount rate used to measure the total OPEB liability was 2.19%. The projection of cash flows used to determine the discount rate assumed that the District's contributions will be made at rates equal to the actuarially determined contribution rates. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

#### C. Changes in the Net OPEB Liability

The changes in the total OPEB liability are as follows:

		Total

#### D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$380,932. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Decsription	rred Outflows Resources
Changes of assumptions Differences between expected and actual experience	\$ 750,541 622,319
Total	\$ 1,372,860

The differences between projected and actual earnings on plan investments is amortized over five years. The District reported \$641,224 as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

#### A. General Information About the Pension Plans (continued)

#### **Plan Description**

The District contributes to the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A full description of the pension plan, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2019 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

#### Members Covered by Benefit Terms

At June 30, 2020 (Measurement Date), the following members were covered by the benefit terms:

	Miscellaneous Plans			
	Classic	PEPRA		
Plan Members	Tier 1	Tier 2	Total	
Active members	4	31	35	
Transferred and terminated members	7	22	29

Transferred and terminated members	54	28	82		
Retired members and beneficiaries	73	<u> </u>	73		
Total plan members	171	34	205		

#### Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five years of service. The death benefit is one of the following the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each Plan are applied as specified by the Public Employees' Retirement Law.

#### **Contributions**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Contributions for the year ended June 30, 2021, (Measurement Date June 30, 2020) were as follows:

	Total Plans				
		Classic		PEPRA	
Contribution Type		Tier 1		Tier 2	 Total

## B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

#### **Proportionate Share of Net Pension Liability and Pension Expense**

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2020, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020, using standard update procedures. The District's proportionate share of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The following table shows the District's proportionate share of the risk pool collective net pension liability over the measurement period for the Miscellaneous Plan for the fiscal year ended June 30, 2020:

Plan Type and Balance Descriptions	Plan Total Pension Liability	Plan Fiduciary Net Position	Plan Net Pension Liability
CalPERS - Total Plan:

# B. Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

The District's proportionate share percentage of the net pension liability for the June 30, 2020, measurement date was as follows:

	Percentage Sha		
G IDDDG - W - I DI	Fiscal Year Ending	Fiscal Year Ending	Change Increase/
CalPERS - Total Plans	June 30, 2021	June 30, 2020	(Decrease)

Percentage of Plan (PERF C) Net Pension Liability	0.07891%	0.25843%	-0.17952%

For the fiscal year ended June 30, 2021, the District recognized pension expense of \$5,867,120. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Account Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions made after the measurement date	2,106,671	-
Difference between actual and proportionate share of employer contributions	13,253,360	(608,213)
Adjustment due to differences in proportions	439,346	(12,692,289)
Differences between expected and actual experience	581,459	-
Differences between projected and actual earnings on pension plan investments	212,452	-
Changes in assumptions		(40,924)
Total Deferred Outflows/(Inflows) of Resources	\$ 16,593,288	\$ (13,341,426)

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

# B. Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

An amount of \$2,106,671 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as a reduction to pension expense as follows:

Amortization Period Fiscal Year Ended June 30,	Outflo	Deferred ows/(Inflows) Resources

#### Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2020 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2019, total pension liability. The June 30, 2020, total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.50% Net of Pension Plan Investment and Administrative Expenses; includes Inflation
Mortality Rate Table	Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB
Post Retirement Benefit Increase	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

# B. Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (continued)

#### **Long-term Expected Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class.

Investment Type <sup>1</sup>	New Strategic Allocation	Real Return Years 1 - 10 <sup>2</sup>	Real Return Years 11+ <sup>3</sup>
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	0.80%	2.27%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
	100.0%		

<sup>&</sup>lt;sup>1</sup> In the CalPERS's ACFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### **Subsequent Events**

There were no subsequent events that would materially affect the results in this disclosure.

<sup>&</sup>lt;sup>2</sup> An expected inflation rate-of-return of 2.5% is used for years 1-10.

<sup>&</sup>lt;sup>3</sup> An expected inflation rate-of-return of 2.9% is used for years 11+.

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report and can be obtained from CalPERS' website under Forms and Publications.

#### C. Payable to the Pension Plans

At June 30, 2021, the District reported no payables for outstanding contributions to the CalPERS pension plan required for the year ended June 30, 2021.

#### **NOTE 14 - NET INVESTMENT IN CAPITAL ASSETS**

At June 30, 2021, the net investment in capital assets was calculated as follows:

#### **NOTE 15 - UNRESTRICTED NET POSITION (DEFICIT)**

As of June 30, 2021, the District has an unrestricted net position deficit of (\$25,299,013). The unrestricted net position deficit resulted from the reporting of the District's net pension lability of \$8,585,829 along with the remaining balance of the pension obligation bonds issued of \$19,445,000. These liabilities are being reviewed on an annual basis.

#### **NOTE 18 - DEFERRED COMPENSATION SAVINGS PLAN**

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program. The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans.* Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the statement of net position.

Notes to Financial Statements June 30, 2021

#### **NOTE 19 - JOINT VENTURES**

The District is a member of the North County Dispatch Joint Powers Authority (Authority). The Authority was formed on June 11, 1984, and other member agencies include the North County Fire Protection District, and the cities of Vista, San Marcos, Solana Beach, Oceanside, Encinitas, and Carlsbad. The purpose of the Authority is to provide dispatching and emergency communication services for fire protection, security, and medical services. Each member provides an annually determined contribution towards the ongoing operation of the Authority. In the event of dissolution of the Authority, available assets shall be distributed to the member agencies in proportion to the aggregate contribution made by each agency during the entire term of the agreement.

The activities of the Authority are supervised by a board of directors consisting of eight directors who are appointed by each member's governing body. The District's share of the Authority's assets, liabilities, net position, and changes therein are not available and not material to the District's financial statements. Separate financial statements of the Authority are available at 16936 El Fuego Drive (P.O. Box 1206), Rancho Santa Fe, CA 92067.

#### **NOTE 20 - RISK MANAGEMENT**

The District is insured for a variety of potential exposures. The following is a summary of the insurance policies carried by the District as of June 30, 2021:

General liability: \$1,000,000 per occurrence and \$3,000,000 aggregate. The District purchased additional excess coverage layers: \$10 million per occurrence and \$20 million aggregate for general and auto liability, which increases the limits on the insurance coverage noted above.

Auto liability: \$1,000,000 liability limits and deductibles applied to specific vehicles with a \$1,000 deductible on Comprehensive and Collision, and other vehicles have a \$1,000 deductible on Comprehensive and on Collision.

#### **NOTE 21 - COMMITMENTS AND CONTINGENCIES**

#### **Grant Awards**

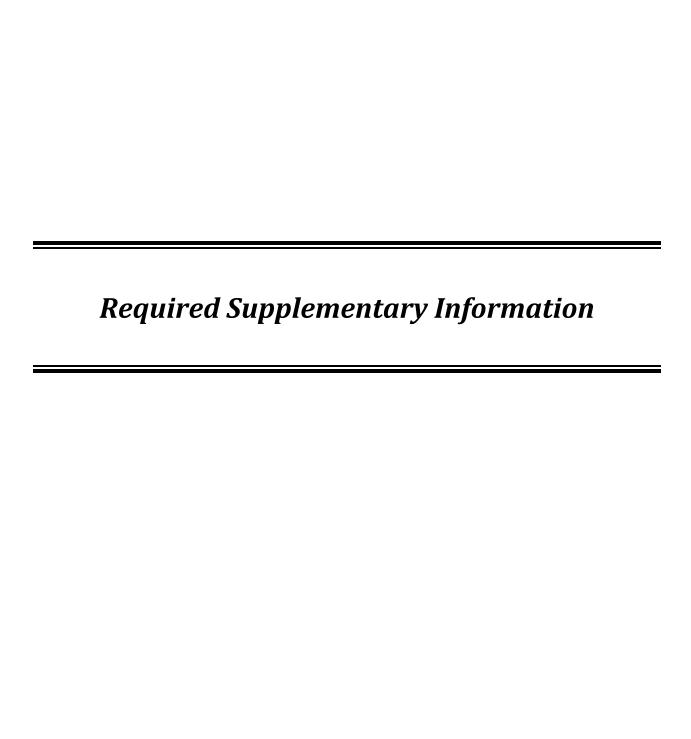

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

#### Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition

#### **NOTE 22 - SUBSEQUENT EVENTS**

The District has evaluated subsequent events through December 31, 2021, the date which the financial statements were available to be issued.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors North County Fire Protection District Fallbrook, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the North County Fire Protection District as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise North County Fire Protection District's basic financial statements, and have issued our report thereon dated December 31, 2021.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered North County Fire Protection District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the North County Fire Protection District's internal control. Accordingly, we do not express an opinion on the effectiveness of the North County Fire Protection District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether North County Fire Protection District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
